*PCA's library recommends the following books for your child's summer reading enjoyment and to help them preserve their reading skills. You'll find something for every reading interest, so enjoy! More advanced readers may wish to consult the reading list for Grades 3-4. Note: different books are appropriate for and appeal to different ages, reading levels, personalities and parents' preferences. As always, please use your discretion in helping your child choose what to read.*

***A WORD ABOUT LEXILE MEASURES***

*Lexile measures quantify the difficulty of a piece of text OR a student's reading ability level. Where available, they have been provided in the following list. Note that an 'AD' Lexile code preceding the measure indicates "adult directed". Many picture books receive this code because they are typically read by adults to children. Independent readers can also enjoy these books and improve their reading skills at the same time. As with any book, adults can help their children to decipher long sentences and sound out unfamiliar words.*
